

ORACLE OPEN OFFICE

COMPREHENSIVE TOOLS FOR OFFICE PRODUCTIVITY

KEY FEATURES

- Enterprise-class office suite
- Support for word processing, spreadsheets, presentations, databases, and drawings
- Runs natively on Windows, Mac, and Linux
- Compatible with Microsoft Office file formats and PDF
- Based on the open standard ODF
- Integrated into Oracle Cloud Office and Oracle Applications

KEY BENEFITS

- Build a more flexible and sustainable IT infrastructure.
- Dramatically reduce office software license costs (as compared to Microsoft Office).
- No vendor lock-in increases options for future infrastructure investments.

With Oracle Open Office, organizations can address the office productivity challenges of the globalized and competitive twenty-first century. This enterprise-class office suite provides integrated, easy-to-use office tools with a complete set of features, and it can dramatically reduce costs.

Complete—All You Need for the Office

The knowledge worker of today needs to rely on comprehensive office tools to manage everyday work. Oracle Open Office provides applications for word processing, spreadsheets, presentations, databases, and drawings—with a full set of robust features. Based on mature code and backed by Oracle Premier Support, Oracle Open Office is the complete solution for maximizing office productivity.

Figure 1. Oracle Open Office offers robust features for word processing, spreadsheets, presentations, databases, and drawings.

Flexible and Compatible—Your Choice

Oracle Open Office has a unique multiplatform approach. It runs natively on Windows, Mac, and Linux, offering a more flexible and sustainable IT infrastructure. With more than 500 extensions, compatibility with the Microsoft Office 2007 and 2010 document file formats, and no vendor lock-in, Oracle Open Office provides significant strategic benefits.

Open Standards—Get the Best Technology

The revolutionary innovations of the internet were triggered by open standards-based technologies that provide unrestricted access and enable integration with other technologies. Oracle Open Office is based on the open standard OpenDocument Format for Office Applications (ODF) recognized as ISO/IEC 26300, which leverages the benefits of open standards for the office infrastructure. This leading open standards-based office suite is built upon the open source, downloadable OpenOffice.org. It is the proven core technology used by more than 100 million corporate and private users.
