

Kent Åberg, CEO & Founder

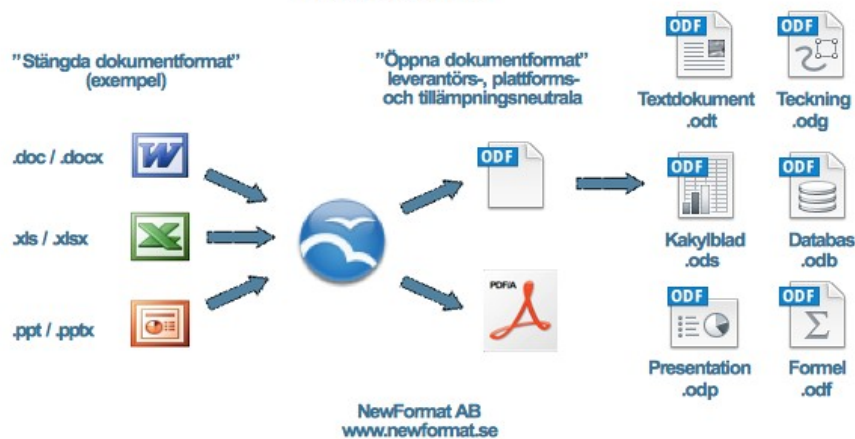

Dear Customer,

I have started NewFormat AB to provide your enterprise opportunities that come with ICT-solutions based on open standards and open document formats.

Oracle Open Office / OpenOffice.org is the recognized de facto standard worldwide for alternative office software suites based on open source and open standards like the OpenDocument Format (ODF)

We train your co-workers for future-proof information access

Oracle Open Office / Openoffice.org  
rätt programvara och rätt kunskap  
mer behövs inte

We use course material from Oracle - the guarantor and driving force behind OpenOffice.org  
For more information – Click here: [ooo-training.openformat.se](http://ooo-training.openformat.se)

Sun OpenOffice.org Learning Path	Classroom/Instructor-led	Self-paced/Online
OpenOffice.org Writer/Calc/Impress Essentials	-	WPO-800/-810/-820/B-800

"Successfully Adopting and Integrating the OpenDocument Format with Microsoft Office Document Formats" here:  
[Contact NewFormat AB](#)

**NewFormat takes your business to lower costs with open document formats.**

We do inventory and analysis of existing document templates and macros, in advance of migration to ODF & PDF/A-1. Oracle Open Office Enterprise Edition, OpenOffice.org, Oracle ODF Plugin for MS Office, Oracle Open Office Server PDF Converter, consulting services and training (instructor-led courses and/or self-paced studies with optional certification).

[www.newformat.se](http://www.newformat.se)

[ODF - OpenDocument Format OASIS Standard \(ISO/IEC 26300\)](#) is an XML-based open standard for file formats of office documents (spreadsheets, text documents, presentations, and databases,...). ODF is designed to be completely vendor, platform- and application neutral – the user is freed to choose his preferred ICT-solution from different vendors, without any need to change or adopt his own ICT-environment.

[PDF/A-1 - Portable Document Format/Archive Standard \(ISO 19005-1\)](#) is a file format providing a mechanism for representing electronic documents in a manner that preserves their visual appearance over time, independent of the tools and systems used for creating, storing or rendering the files.
